The book is marked by a spirit of frankness and moderation, and there is abundant internal evidence to show that the writer had peculiar means and opportunities of closely observing the incidents which he depicts, and of recording them with accuracy. The Translator is however sensible, that some injustice may have been done to the original, in a version which has been undertaken by one who is little acquainted with the metaphysical arguments in which the Author frequently engages; and with the technical language in which those arguments are embodied.
